It will be seen from his letter on file containing his order about Dr Sinclair's appt as Dep Sanr Comr that his Council was not in favour of combining the duties of Dr Sanr Comr & Supt of the Health Institute in the same person but that the Bombay Council accepted the proposal as it involved no extra expense

From Rao Saheb Dr. T.V.Arumugam Moodr., M.B & C.M.,
~~P. S. Achyuta Rao, Esquire,~~
Offg. *Senior Surgeon* / Sanyr. Commr., *with the Government of*
H. H. the Maharaja of Mysore, Bangalore.

To
K. R. Srinivasa Iyengar, Esq., M.A.,
Secretary to the Government of
H. H. the Maharaja of Mysore, Genl. and Rev. Deptts.,
Bangalore.

Sir,

I have the honor to report for the information of Government that Dr. M.Srinivasa Rao, the Director of Public Health Institute, states in his letter No. 1 dated the 3rd Instant, that on his appointment as Deputy Sanitary Commissioner, which necessitates his frequent absence from head quarters, it has become impossible for him to attend to his duties as Chemical Examiner to Government and that that office must be considered as vacant: that his Assistant Mr. Krishnasawmy Iyengar has been doing the duties of the Chemical Examiner since and signing all papers and that as Mr. Krishnasawmy has not been gazetted as the Chemical Examiner, the Superintendents of Police of Bangalore & Mysore have refused to accept certificates granted by Mr. Krishnasawmy Iyengar on the ground that they have no judicial value.

2. On being asked on what authority he transferred his functions as Chemical Examiner to his Assistant, Dr. Srinivasa Rao states that he personally saw the permanent Senior Surgeon Dr. P.S. Achyuta Rao and was permitted by that officer to entrust his duties as Chemical Examiner to his Assistant.

There is however no such record in this office to shew that any such permission was given, nor any order of Government authorising the grant of it.

3. For my part, I believe that the Senior Surgeon as such, has no authority to grant permission of the kind without an express order to that effect from Government. I am, therefore, of opinion that Dr. Srinivasa Rao's action in having delegated the important duties of the Chemical Examiner to his Assistant and permitted him to grant certificates as such was unauthorized and therefore highly objectionable.

4. A Director of Public Health Institute is expected to be constantly watching and directing chemical & bacteriological operations conducted by his Assistants at every step, however good such Assistants may be and however high their qualification may be; a Director must necessarily be a stationary officer in a Public Health Institute.

5. The duties of a Deputy Sanitary Commissioner require him very often to go about the Province and such itinerating duties are inconsistent with those of a Director of a Public Health Institute. In this connection I beg to bring to the notice of the Government that Dr. Srinivasa Rao in his capacity as Deputy Sanitary Commissioner spent a number of days at Thirthahally in the Shimoga District, during the Yellamavasya Jatra there in the early part of this month, of which I have had no information from him. Dr. Srinivasa Rao's report of the work done by him at the Jatra will be submitted to Government after it is received.

6. An officer must either be a Director of Public Health Institute or a Deputy Sanitary Commissioner, but not both.

Awaiting favour of early orders on the questions raised by me.

I have the honor to be,
Sir,
Your most obedient servant,

Offg Senior Surgeon & Sany.Commr.,M.G.
